

## **IMPORTANT**

- If you are hiring the equipment for your training, please inform your supplier that the Towers are for a PASMA course.
- You will need both towers for practical; otherwise the course cannot be completed.
- Tower should be 4.2 Metres in platform height.
- Tower can be single width or double width, ideally manufactured by Boss, Youngman's, Eiger, Lyte, or Lewis.

Example below is based on single width towers at 4.2 m platform height:

### **Single width 3t tower system.**

- 4 Castors
- 4 Adjustable Legs
- 4 Stabilisers
- 2 Small Frames (2 Rung)
- 4 Large Frames (4 Rung)
- 1 Kickboard
- 2 Trapdoor Platforms
- 10 Horizontal braces
- 7 Diagonal braces
- 2 Diagonal Braces

### **Single width new advanced guardrail tower system**

- 4 Castors
- 4 Adjustable Legs
- 4 Stabilisers
- 2 Small Frames (2 Rung)
- 4 Large Frames (4 Rung)
- 1 Kickboard
- 2 Trapdoor Platforms
- 4 Advanced Guardrails
- 2 Horizontal Braces
- 2 Diagonal Braces
